

Human Being Human

Natural

Karma took the day off
Keep your heads up
I'm not joking
They don't give you many
I don't take any
I don't know nothing, I can't lie
I'm good inside
I even cry sometimes
I'm too real
I'm too human, being human
I'm too real
Just a human, being human
Being me
I don't know what you'd call it
Fear of falling
Paranoia
I watch were I'm walking?

And who I'm calling?
You never do know, I can lie
I'm good inside
I even cry sometimes
I'm too real
I'm too human being human
I'm too real
Just a human being human
Being me
I'm too real
I'm too human, being human
I'm too real
Just a human, being human
Being me
Just a human, being human
Being me
Being me
