

# Lightning Bolts

[IKO](#)

And all this talk of  
Having you around  
Has knocked me right off course  
And at the edge of the map  
So take a minute to  
Gather this thought alone I love your lightning  
I love your lightning  
I love your lightning  
Bolts And hope is a big word  
Here's some more to hold it in And hope is a big word  
Here's some more to hold it in I love your lightning  
I love your lightning  
I love your lightning  
I love your lightning  
Bolts
