The Bodiless

Benediction

Final state, rejuvenate - Acquiring the world...
...of mind without a host - Dreams unfulfilled
Ominous mental man - Leave me bodiless
Percept disincarnate - Physical regressThe Bodiless - Mindforce progress
This scattered Ash - Our Epitaph
The Bodiless - Mentiferous
Tumourous son - Our paragon
Regrowth in wisdom, regrowth in grace
Yet fading flesh
Incongruous to our humanity
Devout and pious"god writes straight with crooked lines.....
.....jesus please us never feed us, god"
Intervenes in our sufferance
Regard without contempt
Deformed, reform the human race
Evolve experiment - Resculpture genetic art
Cauterise an answer - Mutation for amputation
Neoplasm, Cancer - Mnemonic mitigator
Existing without form
A growth of mind darkly saritical
Seraph - The immortal is born
