I Am the One

Inkubus Sukkubus

I am the one
From the dark side of your dreams
I am the one
The one who hears your screamsI am the one, I am the oneI am a vampire, the calling for our love
I am the fire that burns within your bloodI am the one, I am the one
I am the one, I am the oneNo bars or chains can keep me from your bed
Nothing on earth can get me from your headI am the one, I am the one
I am the one, I am the oneI'm the angel of your desire burning in the night
I'm the pyre, I'm the fire, come to set you alight
I'm the oneForget the past, live only for tonight
How many loves have shared such pure delight?I am the one, I am the one
I am the one, I am the oneI'm the angel of your desire burning in the night
I'm the pyre, I'm the fire, come to set you alight
I'm the oneRest now, my love, let troubles slip away
I shall return on the darkening of the dayI am the one, I am the oneI'm the angel of your desire burning in the night
I'm the pyre, I'm the fire, come to set you alight
I'm the one, I'm the one
