

I Am the One

Inkubus Sukkubus

I am the one
From the dark side of your dreams
I am the one
The one who hears your screams I am the one, I am the one I am a vampire, the calling for our love
I am the fire that burns within your blood I am the one, I am the one
I am the one, I am the one No bars or chains can keep me from your bed
Nothing on earth can get me from your head I am the one, I am the one
I am the one, I am the one I'm the angel of your desire burning in the night
I'm the pyre, I'm the fire, come to set you alight
I'm the one Forget the past, live only for tonight
How many loves have shared such pure delight? I am the one, I am the one
I am the one, I am the one I'm the angel of your desire burning in the night
I'm the pyre, I'm the fire, come to set you alight
I'm the one Rest now, my love, let troubles slip away
I shall return on the darkening of the day I am the one, I am the one I'm the angel of your desire burning in the
night
I'm the pyre, I'm the fire, come to set you alight
I'm the one, I'm the one
