Aquarious

Nicotine

Aquarious
Under the sun
The dehydrated world
All i want is a bottle of water
Right in the middle
Of an old ghost town
Up in the sky
Something's shiningThe sun is up on the mountain
I wanna know the location
And direction
I've been lost on my way
The I look up and read
The constellation
AquariousShe is my angel
She always tell me
What is wrong, what is right
What is left and what is right
I still believe in the sign she gave me
I don't wanna use my compass
'Cause I know she's tellin' me the wayAquarious
Under the sun, the dehydrated world
All I want is a bottle of water
Right in the middle of an old ghost town
Up in the sky
Something's shiningAquarious, aquarious, aquariousGet the star from the constellation
Points me to the right direction
Wanna catch a ride on the galaxy
Celelstial dreams for you and meShe is my angel
She always tells me
What is wrong, what is right
What is left and what is right
I still believe in the sign she gave me
I don't wanna use my compass
'Cause I know she's tellin' me the way
