

# All In

## Bronze Radio Return

I'm gonna take these rocks and turn 'em into diamonds  
Sell 'em on the corner, bring the money home to you  
I'll work all day and set aside my pride  
I'll beg, plead and dance, just as long as I provide  
It may not be much, but I'll make sure we survive[Chorus:]  
I'm going all in, gonna figure it out  
It's what you do with and how you do without  
I'm going all in and I'm starting right now I'm gonna take this song and sell it for a million  
Buy a little house where we can grow a little garden  
With a porch we'll sit on to drink coffee in the morning  
I'll write tunes in the living room while you paint a canvas so adoring  
We'll have enough to live our lives without warning[Chorus:]  
I'm going all in, gonna figure it out  
It's what you do with and how you do without  
I'm going all in and I'm starting right now I hear you laughing in the kitchen  
I see you dancing on the floor  
I smell the meal that you've been fixin'  
And I don't worry anymore  
Every night we'll fill our glasses  
And when they're light we'll pour some more  
A life of sugar like sweet molasses  
The taste that we've been working for  
Laughing in the kitchen  
We'd be dancing on the floor....I'm going all in, gonna figure it out  
It's what you do with and how you do without  
I'm going all in and I'm starting right now  
I'm going all in, gonna figure it out
