

Tiny Spark

American Hi-fi

I will begin again
Don't know how and don't know when
Something's gotta give
So far I fall from grace
Taking all the breathing space
Won't you let me in?
There's beauty in the sound
Butterflies go underground
On a busy sea
Still floating in the dark
Waiting for a tiny spark
Lucky to be free
I wanna hear you say it's all
I wanna hear you say
I wanna hear you say it's all
I wanna hear you say
I wanna hear you say it's all
I wanna hear you say
I wanna hear you say it's all
I wanna hear you say, baby, it's alright
