

Never Knew You Loved Me Too

Kelly Jones

Never knew you loved me too
We've been friends for a long long time
 Guess I must have missed the signs
Never knew you loved me too
Kept it secret in my heart
 Left a dream on a question mark
Never knew you loved me too
Life is full of little windows
 That open now and then
 So I guess we'll have to
Wonder what we might have been
 All the chances that went by
 I must admit I was afraid inside
Never knew you loved me too
Life is full of little windows
 That open now and then
 So I guess we'll have to
Wonder what we might have been
 Who can say if it's a better thing
 Sweeter left to imaginging
Never knew you loved me too
Never knew you loved me too
