The Friendly Sound

Lemaitre

A void space modulating in mysterious ways,
Look at the stars, we are so far apart,
Look how they burn, is it because of us?
Maybe they're just shining for these friendly sounds,
-
They shine regardlessly of who is here,
If you're not for us there must be something here,
I don't see anything else around,
Maybe they're shining for these friendly sounds,
-
Maybe they're shining for these friendly sounds,
