

# Long Gone Lately

Andrew Combs

Don't you ever get tired of being so lonely  
Tell me why you would stay  
Leave the light on for me  
And if I dare come near  
Your eyes are all but tears  
Tried and tried but now it's tried and true Long gone lately  
Long gone baby  
That's all you ever seem to be  
Long gone lately  
Long gone crazy  
Has your love forgotten me  
Don't you ever get lost searching for alibies  
Who and what and when and where  
And all the reasons why  
I can't stand to stay  
But I can't walk away  
By and by  
Guess I learned from you Long gone lately  
Long gone baby  
That's all I ever wanna be  
Long gone lately  
Long gone crazy  
Has our love forsaken me  
Long gone lately  
Long gone baby  
That's all we ever seem to be  
Long gone lately  
Long gone crazy  
I never thought we could be  
Long gone  
Long gone  
Long gone lately
