Away, Away

Push Play

Look a little bit closer
Look a little bit closer at me now
Look how much I've changed
And threw all my bad habits away
Position changed I'm ready for the next round
Away away away
You took my breath away
Just to spit it out
I promise you won't regret
Won't regret that you took me back this time
(Whoa whoa whoa whoa)
'Cause things are moving so fast
I don't think this'll last the rest of our lives
Position changed I'm ready for the next round!
Away away away
I took your breath away
Just to spit it out
Away away away
The time will take away all your hopes and doubts

Hey now, look out
Well these things will happen for a reason
Hey now, look out
Something's got to break now
Hey now, look out (Whoa oh whoa)
Hey now, look away away away
I take your breath away
Just to spit it out, out, out, out, out!
(yeah)
Away away away
I took your breath away
Just to spit it out
Whoa oh whoa (spit it out!)
Away away away
I took your breath away
Just to spit it out
Let's go!
Away away away
Look a little bit closer

Look a little bit closer at me now
