

Heartbroke

Wakey Wakey

I was there when your heart broke,
I was there when you lost hope
I was there when your heart split,
Roof to the pavement

They don't know you like I know you
They don't hold you like I hold you
They don't know you at all
They don't know you like I know you
They don't hold you like I hold you

Lost for a loss cause
Dark as a heart gets
Not what you hope for
Just what your heart did
Nothing good can come of this at all (x4)
But hey, let me hold on

They don't know you like I know you
They don't hold you like I hold you
They don't know you at all
They don't know you like I know you
They don't hold you like I hold you
Hey, let me hold on (x9)

Were they there when your heart broke?
Were they there when you lost...
