

Never Gonna Fake It

Eyeshine

Let's get this record straightened out
They filled us up with so much doubt
They even laughed at us
To take this serious

So they started to look down on us
And doubted our faith
But you know
The goal it burns deep in our veins

They said we don't belong
But our fanbase proved them wrong

This is our last shot
To make this work out
This is all we've got

It makes me wanna
Shout from the top of my lungs
I know we're the ones
No one can push us around
Never gonna stop us now

We're never gonna take it
We're never gonna take this lying down
We're never gonna fake it

All at once we found a sound
That kept our hearts from shutting down
I moved along the left
Forgetting all the rest

But before now
Nothing ever wanted to change
'Til we made one hope
One more dream to take

We can't let this one go
Until we grab hold

This is our last shot
To make this work out
This is all we've got

It makes me wanna
Shout from the top of my lungs
I know we're the ones
No one can push us around
Never gonna stop us now

We're never gonna take it
We're never gonna take this lying down
We're never gonna fake it
