Stay in Love

Marcus Canty

Girl you can say anything
Just dont tell me that
And we can play all the games
Just dont play like that
We can go anywhere
But we cant go up like that
Im telling you everything were going through now just aint that bad
Oh no no no(Pre-Chorus)
We got this, I dont know what youre thinkin
We got this, I aint never giving up
Im betting everything we got on us
So baby, can we stay in love?(Chorus)
What do we gotta do to stay in love? Stay in love
What do I gotta give you that will be enough to stay in love?
Listen to me
Aint nobody but us in here
Cause girl Im down if youre down with it
Let's ride it out even though its been kinda rough
But on the real, lets stay in loveI got a plan, just hear me out
Before you say a word
Please, understand what kind of man you got
You gon have to put us first
There gon be days we gon fight it out
Well thats just how we do
You trippin baby
Everything were going through
Girl dont mean were through whoa whoa no no(Pre-Chorus)
We got this, I dont know what youre thinkin
We got this, I aint never giving up
Im betting everything we got on us
So baby, can we stay in love?(Chorus)
What do we gotta do to stay in love? Stay in love
What do I gotta give you that will be enough to stay in love?
Listen to me
Aint nobody but us in here
Cause girl Im down if youre down with it
Let's ride it out even though its been kinda rough
But on the real, lets stay in love(Bridge)
Make me a list, girl write it down

Dont you leave nothing out
Promise Ill follow it babe
Girl anything that you say
Thats how its made in love baby(Chorus)
What do we gotta do to stay in love? Stay in love
What do I gotta give you that will be enough to stay in love?
Listen to me
Aint nobody but us in here
Cause girl Im down if youre down with it
Let's ride it out even though its been kinda rough
But on the real, lets stay in loveLets stay in love
Lets stay in love
Lets stay in love
Lets stay in love
Lets stay in love
Lets stay in love
