

Fantasize The Scene

Circuit des Yeux

once the rain has washed away
they'll be (through again?)
you and me
once the wind has gone through
they'll be words spoke
that we're into
i know a place
we could go
maybe i will meet you there
in a world where we'll go all the way
all the way
maybe i will make the jump
maybe you will push up through
go all the way
all the way
we could move out to l.a.
where the fires rage
where no one knows our name
the corner store will be just too far
so, we'll roam
until the unknown

()

maybe i will meet you there
in a world where we can go all the way
all the way
maybe i will make the jump
maybe you will push on through
go all the way
all the way
know that (?)
the door is open wide
and in the shadows i see
the figure is walking back to me
