

Hear Dat

Havoc

Yea

Aha

Let's get it Ain't never had to grind, I'm seein how your heart break A off

You never take your day off, boy like the play off

Everybody frontin, you know that they's gonna stay off

Motherfuckers thought they knew me, but nah they was laid off

Niggas tradin cars, yappin out the mouth

And could we talk about a life they ain't move about

And wondered why niggas try to run up in they house

Gotta do the math on a bitch fore you get the stuff

Some of these hoes straight nut gags

And how you try to bend the crib butt ass

Shit be so real, I be dead as

24/7 yea, nigga I just break er less

Get money, give a fuck how a hater feel

My team give it up out here, straight yea

We took care of our own, they never popped off

Cop a ball motherfuckers, now the Glock off[Chorus: x2]

Gotta do what you gotta do, I hear that

When things come back you better hear that

Niggas want they glock back, yea I hear that

Niggas dead on that, did you hear that?I came back from runnin and can nobody change that feeling

People see you want chops, so many clapped feelings

Middle finger up to the sensitive

Go fuck yourself, dose of your own medicine

I'm on the cheddar bands, never was a settling for less

'Cause anything less was just stress

Fuck distractions and the company you keep

We play for keeps, fuck you and your little beefs

Tryna grab that something your arms can't reach

Could be of many other patients, me and my niggas feast

We don't go hard, we beast

Hopefully you could leave in one piece

For the shit they did, niggas dig they own grave like it's part of their belief

So I say rest in peace

You bitch ass niggas when you try to come at me[Chorus: x2][Repeat x2]

Never gave a fuck how a nigga felt

Got my paper, big H, you know how I stay

Hustling shit, out the Xan I was fuckin dealt

And it's all about the team, we don't go for death[Chorus: x2]
