Here For You

Firehouse

So you think you've got it all figured out
Well you know you can't make it alone
Everybody needs somebody to help them out
And you know I could be that someoneAnd if you ever get lost on life's highway
Don't know where to go
There's just one thing that I want you to know[Chorus]
I am here for you, always here for you
When you need a shoulder to cry on
Someone to rely on, I am here for youSo you think that love is long overdue
Tired of looking for someone to care
Let me tell you now the choice is up to you
But you know I will always be thereI am here for you, always here for you
When you're needin' someone to hold you
Remember I told you
I am here for you
I am here for youSo now you've got it all figured out
And you know you've found someone that cares
And if you ever need somebody to help you out
Well you know I will always be thereAnd if you ever get lost on life's highway
Don't know where to go
There's just one thing that I want you to know[Chorus]I am here for you, always here for you
When you're needin' someone to hold you
Remember I told you
I am here for you, I am here for you
