

Can't Wait

Travie McCoy

You know we been together for a while
And I think that it's time to
Take this thing here to the next level
We been together a while and I think it's time that we
(Take it to the next level trying to get you to do whatever)
I'm ready to prove it now girl what you want from me
(Sensitivity and a whole lot of love is what I need)
I fell in love with your mind but right now, girl, I need your body
I'm sick and tired of trying just give it to me girl
You got to know that I'm worthy, I won't do nothing to hurt you
And I just can't wait no more
(Can you wait?)
I can't wait another minute
I put enough work in, a little won't hurt
(Can you wait?)
I can't wait another minute
Gotta handle my business, a sample won't hurt
(You gotta wait)
I can't wait another minute
I put enough work in, a little won't hurt
(You gotta wait)
I can't wait another minute
Gotta handle my business, a sample won't hurt
I'm so damn thirsty for love girl what's it gonna be?
(There ain't been no bumpin' and grindin', girl, I'm trying to get behind ya)
Is the attraction the same that it is for me
(Yes, it is but I'm trying to be careful with my heart, baby)
I fell in love with your mind but right now, girl, I need your body
I'm sick and tired of trying just give it to me, girl
You got to know that I'm worthy, I won't do nothing to hurt you
And I just can't wait no more
(Can you wait?)
I can't wait another minute
I put enough work in, a little won't hurt
(Can you wait?)
I can't wait another minute
Gotta handle my business, a sample won't hurt
(You gotta wait)
I can't wait another minute

I put enough work, in a little won't hurt
(You gotta wait)
I can't wait another minute
Gotta handle my business, a sample won't hurt
(Just a little, yeah)
Imagine me going down, I got you making that sound
Bouncin' you up and down, baby
(Just a little, yeah)
Imagine what it will be you sweating all over me
A sugar residue, baby
(Just a little, yeah)
The sexy roller coaster, your eyes are rolling backwards
Because I got you going crazy
(Just a little, yeah)
And then I'll let you on top, cowboy straddle don't stop
'Cause I want you and I need you right now, baby
(Can you wait?)
I can't wait another minute
I put enough work in, a little won't hurt
(Can you wait?)
I can't wait another minute
Gotta handle my business, a sample won't hurt
(You gotta wait)
I can't wait another minute
I put enough work in, a little won't hurt
(You gotta wait)
I can't wait another minute
Gotta handle my business, a sample won't hurt
(Can you wait?)
I can't wait another minute
I put enough work in, a little won't hurt
(Can you wait?)
I can't wait another minute
Gotta handle my business, a sample won't hurt
(You gotta wait)
I can't wait another minute
I put enough work in, a little won't hurt
(You gotta wait)
I can't wait another minute
Gotta handle my business, a sample won't hurt
(Can you wait?)
A little won't hurt
(Can you wait?)
A sample won't hurt
(You gotta wait)

(You gotta wait)
