

Never Be The Same

The Rubens

I found myself that day
There was no other way
I spent some time away
I'd never be the same I finally was awake
Like water to my face
I finally found my place
I'd never be the same
I'd never be the same Took something bad, to show me what I had
Took something sad to remember who I am I was forced to change
I'm not sure who to thank
Yeah I was such a waste
I'd never be the same
I'd never be the same Took something bad, to show me what I had
Took something sad, to remember who I am I found myself that day
There was no other way
I'd spent some time away
I'd never be the same
