

# I Fell In

Vanessa Williams

Ooh yeah, I thought I knew my name  
But when you asked everything went blank  
I must have looked like a fool  
But it's true time really can't stand still Was it something in the wind that told me look again?  
'Cause I stared into your eyes and then I fell in, ooh  
I fell in, ooh yeah I've always been afraid  
'Cause there's a chance I'll make a big mistake  
All I trust is how I feel  
It's so real but somehow I feel safe How do you know what's at the end of a rushing river bend?  
But you took me to the edge and then I fell in, ooh  
I fell in, ooh yeah  
I fell in, I fell in So I let the ocean carry me and where it takes me I don't know  
So far away everywhere I thought I'd be Something in the wind told me look again  
'Cause I stared into your eyes and then Ooh, I fell in, ooh  
I fell in, ooh  
I fell in, I fell in  
I fell, I fell
