From a Shell

Lisa Germano

Advisory - the following lyrics contain explicit language:

And the earth spins round while the people fall down
And the world stands still not a sound
(Not a sound)There is love, there is love to be found
In the worst way, in the worst way, in the worst wayIt's the buzz, it's the buzz
It's the buzz, it's the buzz
It's the buzz, it's the buzz
I wish I was, it's the buzz
It's the buzz, it's the most fuzzFrom a little shell at the bottom of the sea
With the earth and the moon and the sun above
But the world fell down with some people still aroundThere is love, there is love to be found
With the gods all gone and the souls making sound
In the worst way, in the worst way, in the worst wayIt's the buzz, it's the buzz
It's the buzz, it's the buzz
It's the buzz, it's the buzz
I wish I was, it's the buzz
It's the buzz, it's the most fuzzFrom a little shell at the bottom of the sea
With the earth and the moon and sun around meThere is love, there is love, there is loveIt's the buzz, it's the buzz
It's the buzz, it's the buzz
It's the buzz, it's the buzz
I wish I was, it's the buzz
It's the buzz, it's the most fuzz
