Warfare Plague Famine Death

Entombed

Sick, sick, sick, murder and crucifix
Thieves and liars, holding hands
Joint effort, rape of land, supply and demand
Sick, sick, sick, all together now, sick, sick, sickWave the flag of warfare, plague
Famine and death, let God sort them out
Indiscriminate slaughter of the damned
Rotting carnage, indiscriminateThieves and liars, murderers
Well rehearsed, children first
Hypocrites with bachelors in greed
Ravaged land, severed hand to serve demand
Decapitated head, come souvenirFan the flame of warfare, plague
Famine and death, let God sort them out
Devastation by fire from the sky
Serve to dieFierce and relentless progress
Burning sea choked with corpses
Get away with anything
This is what the angels bring
Genocide and sufferingSoldiers of the apocalypse
Murderers and hypocrites
Thieves and liars reign in hell
Godless with no soul to sell
Apocalyptic terror, godless eraGo with God
Go with God
Go with God
Go with GodRotten to the core, greedy like a war
Always after more, go with God
Fan the flame, the godless never rest
Paradise inside, Hubris, Nemesis
Vermin, deathReign in hell
Now, it's the end of the ride
Let God sort them out
Indiscriminate slaughter of the damnedWave the flag of warfare, plague
Famine and death, let God sort them out
Devastation by fire from the sky
Serve to dieWarfare, plague, famine, death
Warfare, plague, famine, death
