Born

Starfucker

So many people
feeling troubled
So many problems
callings rhythms

Just wanna hold your little hand
Just wanna hold out in the sand
Just wanna give you hope that everyone will love this all and nothing better
All our sorrows wash out in the rain

So many people
evil, killing
So many creatures
feelings inside

Just wanna take you by the hand
Or build a castle in the sand
We?ll feel and care and love for everyone where nothings wrong and nothings bad
All our sorrows wash out in the rain
