Turn It On Again

Ronan Keating

I know you're wild, I know you're dangerous
I know you're bad for the both of us
So stick around, give me one more kiss
Get into this yeah, yeahHanging up there's no alternative
Five years on we still remember it
A stolen night, oh what I'd give
Let's make it seriousTurn it on, turn it on again
I need to feel the world spin
Turn it on, turn it on again
I don't know why
But I've still got you under my skinOur lives have changed it used to mean as much
I saw you with him in the traffic rush
What's right for him, must be good for us
This time it's real, it's the two of usTurn it on, turn it on again
I need to feel the world spin
Turn it on, turn it on again
I don't know why
But I've still got you under my skinI wanna believe in
What ever's the real thing
I wanna believe in everything
EverythingTurn it on, turn it on again
I need to feel the world spin
Turn it on, turn it on again
I don't know why
But I've still got you under my skinTurn it on, turn it on again
I need to feel the world spin
Turn it on, turn it on again
I don't know why
But I've still got you under my skin
