

# Zebra

## Original Soundtrack Theme

you know you're gold  
you don't gotta worry now honey  
oasis child  
born and so wild  
don't i know you better than the rest  
all deception, all deception from you  
your love is stag  
in the white sand  
Wilderness for miles  
eyes so mild and wise  
don't i know you better than the rest  
all deception, all deception from you  
anyway you run, you run with poise  
black and white horse  
arching among us

you love is stag  
in the white sand  
oasis child  
born into a mare  
don't i know you better than the rest  
all deception, all deception from you  
Wilderness for miles  
eyes so mild and wise  
oasis child  
born and so wild  
don't i know you better than the rest  
all deception, all deception from you  
anyway you run, you run with poise  
black and white horse  
arching among us
