

Piss Test

Anvil

Invading your privacy by authoritative rule

Finding a culprit or maybe a mule

Law breaking citizen tries to keep it cool

Keep it cool

You must try to obstatin

Nothing to stop the painFor breaking this law they will incarcerate

Random testing, they wait for you to urinate

You must try to obstatin

Nothing to stop thePiss test, fill the cup

Piss test, filler upTechnology today makes it easy to pry

Well all I can say is "Here's piss in your eye"

Here's piss in your eye

You must try to obstatin

Nothing to stop the pain
