

To The Ground

Smile Empty Soul

You are my light
You are my fireThe only one that's not a lieYou get me through all of my days
And keep me numb to the painWhen I'm lonely
When I'm calling out
Scream for a friend
You always hear the sound
Keep me happy
Keep me happy now
When all the world around
Crumbles to the groundCrumbles to the groundYou keep me calm when I'm not fine
You take the pressure off of mindAnd even though I don't see clear
I feel safe cause your hereWhen I'm lonely
When I'm calling out
Scream for a friend
You always hear the sound
Keep me happy
Keep me happy now
When all the world around
Crumbles to the groundCrumbles to the groundMind's too fucked up
To really see
To really seeYour the best friend
Who's killing me
It's killing meYou get me through all of my days
And keep me numb to the painWhen I'm lonely
When I'm calling out
Scream for a friend
You always hear the sound
Keep me happy
Keep me happy now
When all the world around
Crumbles to the groundCrumbles to the ground
Crumbles to the ground
Crumbles to the ground
