

Mucho Mas

We Are Scientists

Callin' off the signal chain
I been holdin' out for the right thin'
The pilot's goin' out and then
The bottom opens up Showin' up to press the flesh
I been holdin' out for one last wish
As nice as all this promise is
I know it's not enough I got a bit, I want more
I want more Blood is on the symbol stand
How can I do this shit to my right hand
Surprise, surprise when once again
The bottom opens up
