

Love Happens Just Like That

Bryan White

You didn't notice me right beside you
I said you looked like someone that I knew
A little lie to get you to talk to me a while
Your eyes, oh, how they melt me
Your smile, girl, heaven help me
Your lips kiss and tell me a thing or two
And oh, the happy ending this could be
Swept away in love and all it's glory
One minute hearts are lonely, the next each other's only
Then darlin', I just know we'd fall that fast
So don't you ever think it can't
Love happens just like that
I could try and act like I don't care
But bein' shy that gets me nowhere
Though I admit, I'm a little bit scared to talk to you
A risk, yeah maybe
But that's one worth taking
'Cause I see a love in the making here with you
And oh, the happy ending this could be
Swept away in love and all it's glory
One minute hearts are lonely, the next each other's only
Then darlin', I just know we'd fall that fast
So don't you ever think it can't
Love happens just like
Lightning striking, flames igniting
In an instant, souls igniting, yeah
One minute hearts are lonely, the next each other's only
Then darlin', I just know we'd fall that fast
So don't you ever think it can't
Love happens just like
Don't you ever think it can't
Love happens just like that
It happens just like that
Love happens just like that
Love happens just like that, yeah
Love happens just like that
