Overdose

Jamie Foxx

Advisory - the following lyrics contain explicit language:

They say, I had it bad, addicted to what we had
Heartbreaks now fading fast, vital's low, might not last
Strapped down while sirens ring, holding on trying to breathe
Not like this, I can't leave, look what you've done to meI overdosed, overdosed, overdosed, on you
They said, I've overdosed, overdosed, overdosed on you
'Cause I want you close, need you the most
Without you I'm just through
So I've overdosed, overdosed, overdosed on youRushing me, switching lanes, I.V.'s on through my veins
Blood tests say no cocaine, they don't know you're the blame
'Cause you're deep inside of me, so this is goodbye to me
But for you I'll die happily, one more hit, I'll be freeI overdosed, overdosed, overdosed, on you
They said, I've overdosed, overdosed, overdosed on you
'Cause I want you close, need you the most
Without you I'm just through
So I've overdosed, overdosed, I overdosed on you'Cause I know that you would kill me
'Cause I'm sweatin', tweakin', faintin'
Never been so hurt
But damn, I love this feeling
'Cause I'm achin', breakin', shakin'
Will I make it through the nightAnd now my body's cold
I'm losing it, 'cause I was abusing it, oh no
Can't nobody help, I did it to myself
And that's why I'll do it again and againI overdosed, overdosed, overdosed on you
They said, I overdosed, overdosed, overdosed on you
'Cause I want you close, need you the most
Without you I'm just through
'Cause I overdosed, overdosed, overdosed on you
