

# New Friend Request (Papoose Remix)

## Gym Class Heroes

I remember when I first laid eyes on you  
My man Tom introduced us, but I was too shy to say 'hi'  
When I finally built up enough nerve to drop a line  
You made it clear you wasn't just another myspace mistress  
And I didn't take it personal  
When you ignored my request to be your friend, I spilled my guts and hit send  
Waited two weeks for a response and got nothing  
Honestly, it only made me want you more  
Week four rolled around, and I was this close to letting go  
But something wouldn't let me even though I hardly knew you  
It was plain to see we were meant to lock lips  
You knocked me out with the brass knuckle tats on your hips  
I was on this website late night lurking  
When I got a message from you that was labeled urgent  
You said you weren't impressed by lame dudes with no game  
They're all the same, tryin' to get your instant messenger name  
But the fact that you're hittin' me back made me smile  
You must've saw somethin' you liked when you was skimming through my profile  
You caught me at the most pivotal moments  
And now I'm emailing my love a dozen digital roses[Chorus]  
So click approve, so simple  
Show me some kind of sign, and let me know it's time to make my move  
Just click approve, come on, girl  
Baby, I'm one of a kind, and I ain't got time to lose  
Click approve, you're killing me here  
Show me some kind of sign, and let me know it's time to make my move  
Just click approve, come on, girl  
Baby, I'm one of a kind, and I ain't got time to loseLet's face it, it's a sad situation  
When we have to resort to keyboards as a means of making relations  
But I don't have the patience, I get straight to the point  
So this is me at my most honest  
No egos, no Gym Class status, just Travis  
Love it or leave it, but you gotta admit  
On a scale of 1 to awesome I'm the shit  
Just get over it and have it, goddammit, I'd been waitin' too long  
I even wrote a song about, like to hear it? Here it go  
If I'm being too annoying, let me know (just let me know)  
But it's hard for me to not hate  
When I'm on myspace, I never see my face in your 'top eight'

Approaching six weeks now, it's kinda obvious that you're either occupied or playing a game

All my money's on the latter; this is not a 'LOL' matter

Why would you pass up a chance this great?

If there were two forces, and I split them down the middle

I could swing back and forth for three days (rephrase)

If I had two horses, and I beat them with authority

I'd gallop all the way to Canada to see your face

But all I got is this Powerbook and I-chat

Besides, I hit you all the time, and you never write back

I stay on my feet (shit)

And be persistent till my name is under 'who you'd like to meet'[Chorus]Who cares if we don't know each other's last name?

All I know is that I'm smittin' with your pictures, wishin' you would feel the same

I'll admit I get a little jealous when other dudes leave you comments

Don't let it gas you up; it's all nonsense

Lately I've been romancing the thought of me and you speaking in tongues in this mansion I bought

But it's all wishful thinking

Just give me some kind of sign to let me know I'm not freakin' you out

And if you lovin' what I'm speaking about, then say something

I check my in-box ten times and ain't nothin'

You probably busy doin' something sexy

I just hope I'm in your thoughts next time you log in

And if not, ain't no love lost between you and me

I'll be here when your man ain't fully down as he used to be

So, yeah, it's time to sign out; my vision's getting blurry

This is madness, 'xoxo dash Travis'[Chorus]So click approve
