

O My Soul (Alternate Version)

Big Star

Oh, my soul mama
I lose control
Go ahead and shake if you wanna
And I'll never know
Well, come on
You know it's alright
We've got all night
You're driving me mad, now
You shouldn't do that
We're going to get on up
And drink till we drop You're really a nice girl
And I think you're the most
And when we're together
I feel like a boss Trying to see you
I'd knock off your doors
Dying to see you
I'm down on the floor I can't get a license
To drive my car
But I don't really need it
If I'm a big star Trying to see you
I'd knock off your doors
Dying to see you
I'm down on the floor Never you mind
Go on and have a good time Never you mind, oh
So go on and have a good time, yes indeed I can't get a license
To drive my car
But I don't really need it
If I'm a big star Trying to see you
I'd knock off your doors
Dying to see you
I'm down on the floor
