

Count Me In

[Deana Carter](#)

Could there be a different ending
To the same old story
?Cause you're not the first to say
You're gonna be there for me
I need to know what's in your heart
Can you finish what you start
Tell me how can I be sure I won't be sorry
If heartaches and tears and shadows of doubt
Are part of the deal, you can count me out
But if you're talking about a game I can win
You can count me in
When you tell me you're the one
I've always needed
You don't know how much I'm wanting
To believe it
But I've heard it all before
Now I'm needing something more
A promise is no good if you can't keep it
If heartaches and tears and shadows of doubt
Are part of the deal, you can count me out
But if you're talking about a game I can win
You can count me in
