## **Count Me In**

## **Deana Carter**

Could there be a different ending

To the same old story
?Cause you're not the first to say
You're gonna be there for me
I need to know what's in your heart
Can you finish what you start

Tell me how can I be sure I wont' be sorryIf heartaches and tears and shadows of doubt
Are part of the deal, you can count me out
But if you're talking about a game I can win
You can count me inWhen you tell me you're the one
I've always needed
You don't know how much I'm wanting
To believe it

To believe it

But I've heard it all before

Now I'm needing something more

A promise is no good if you can't keep itIf heartaches and tears and shadows of doubt

Are part of the deal, you can count me out

But if you're talking about a game I can win

You can count me in
