

Reckless Behaviour

SOAK

Reckless behavior
I know, know better
They smoke to the roads like
They've not seen color
Tea for your toast it's easier for me
Dressed like you're forty
Do what you want
Your young and reckless you should not be stopped
To learn, you've got to forget what they taught
And I won't waste my youth this year
So don't spend your night in tears
Slowly holding to things you told me
Most probably stole from unlined poetry
We'll go cruising forget about losing
Leave our nest like we're going to war
And I won't waste my youth this year
So don't spend your night in tears
We are reckless ready for apocalypse
We are golden until the very last of us falls
And I won't waste my youth this year
So don't spend your night in tears
Reckless behavior
I know, know better
