

I Walk Alone

Tarja Turunen

Put all your angels on the edge
Keep all the roses I'm not dead
I left a thorn under your bed
I'm never gone Go tell the world I'm still around
I didn't fly I'm coming down
You are the wind the only sound
A whisper in my heart
When hope is torn apart
And no one can save you I walk alone
Every step I take, I walk alone
My Winter storm
Holding me awake it's never gone
When I walk alone Go back to sleep forever more
Far from your fools and lock the door
They're all around and they'll make sure
You don't have to see, what I turned out to be
No one can help you I walk alone
Every step I take, I walk alone
My Winter storm
Holding me awake it's never gone
When I walk alone Waiting up in heaven I was never far from you
Seeing down I felt your ever move I walk alone I walk alone, every step I take
I walk alone
My Winter storm holding me awake
It's never gone
When I walk alone
