

Blood Money

My Heart to Fear

Why Do We Paint the walls of our churches
with the tears of the starving children
Your Genocide establishment
(day by day) You grow more complacent
(night by night) The money's wasted
Repent Repent
Where Is Your Heart

Look me in the face tell me that you're doing all you can to show Gods grace
You are the disease

We are the Vaccine
The lies hung above your head are the millstone to break your neck
The lies hung above your head are the millstone to break your neck In the end all of your wealth will only be
coals that fuel the fire to burn down your walls all of your wealth will only be coals to fuel the fire to burn down
your
WALLS

Where is Your Heart
I disassociate all of your mistakes from what i represent here on this stage and When the
day is done where are the ones you loved All I see are dollar signs scribed on every page
You are the disease
Love is the Vaccine
WHERE IS YOUR HEART
