

# One Bright Day

## Ziggy Marley & The Melody Makers

One bright day the people together  
One bright day the people together  
One bright day the people together  
One bright day the people together There will be celebrations around the nations  
Love without no care  
There will be singing, plenty swining  
Live without that fear One bright day the people together  
One bright day the people together  
Yes it was one bright day  
Yes it is one bright day  
There is music, you choose it, love it, love it  
Hear this music, don't lose it, love it, love it One bright day the people together  
One bright day the people together  
Hey, unnuh see the one bright day, South Africa free  
Believe me, one bright day, drugs free country Make it to the one bright day  
A said the struggle to the one bright day  
Struggle to the one bright day  
Struggle to the one bright day  
Make it to the two bright days  
Make it to three ooh  
Lord, the people got together  
The people got together So there can be, many, many, years and years and years
