All Around

Jel

I see the rising sun
I feel the warming one
We've come a circle
To the way we once begun
No one's really sure
How to make it up
Or give a name to the way
We've been acting lately
All around
All around
All around
All around
Hey
To feel
A man he buys a gun
He is his father's son
But one day he takes the gun
And the lives of one and many
Looking out one day
A message comes to me
I saw a woman tell the truth with pride
And end up behind bars
All around
All around
All around
All around
Ohh
All around
All around

(Hey)
I walked an empty street
Proud to spill a tear
Then came my shame, my fear to blame
The one and only
See the risin' sun
I feel the warmin' one
We've come a circle
To the way we once begun

Hey
All around
All around
All around
All around
Hey
All around
All around
All around
All around
All around
All around
Uhh
All around
All around
All around
All around
All around
All around
(Hey)
Aaoo
Ahh
