Bigger Picture

Less Than Jake

Breaking down from every insult that you've taken
Burning out from all the minor misconceptions
that just play on your frustrations
there's not a catch phrase that can save you
from one sided conversations
and it's not that hard to figure out
your self doubt has your head so turned around
disappointment doesn't have to cut to a commercial now
it's still not f unny like on television
I'm breaking down I'm burning out
when your self doubt turns you inside out
and it's not funny like on television
I'm passing time since I've been right
and it's not funny like on television
those times I've cracked with no laugh track
and it wasn't funny like on television
