

Last Night Again

Steel Magnolia

Your lips are moving but I can't hear you
Wish you would talk your way right over here
I see you lookin' boy, but I can't feel you
Why don't we just disappear? I'm gettin' jealous of the way he's leanin'
You make him feel like it's all alright
Boy, if you only knew the things I've been thinkin'
You'd be meetin' me outside, yeah 'Cause last night I was callin' you mine
Discoverin' each other 'til the mornin' light
And I don't know where this is goin', but it sure feels right
I don't wanna leave you here tonight
So let's do what we did last night again Your friends are lookin' like they're ready for leavin'
Girl you look like you can't make up your mind
I'm fumblin', actin' like I can't find my keys
Well, maybe you could give me a ride, yeah 'Cause last night I was callin' you mine
Discoverin' each other 'til the mornin' light
And I don't know where this is goin' but it sure feels right
I don't wanna leave you here tonight
So let's do what we did last night again Yeah, yeah, yeah
I can't wait, I can't let you go
No, I can't wait, no, I won't let you go
Let you go 'Cause last night I was callin' you mine
Discoverin' each other 'til the mornin' light
And I don't know where this is goin' but it sure feels right
I don't wanna leave you here tonight
So let's do what we did last night again Yeah, yeah, yeah
Your lips are moving, but I can't hear you
Wish you would talk your way right over here
