## **Last Night Again**

## **Steel Magnolia**

Your lips are moving but I can't hear you Wish you would talk your way right over here I see you lookin' boy, but I can't feel you Why don't we just disappear? I'm gettin' jealous of the way he's leanin' You make him feel like it's all alright Boy, if you only knew the things I've been thinkin' You'd be meetin' me outside, yeah'Cause last night I was callin' you mine Discoverin' each other 'til the mornin' light And I don't know where this is goin', but it sure feels right I don't wanna leave you here tonight So let's do what we did last night again Your friends are lookin' like they're ready for leavin' Girl you look like you can't make up your mind I'm fumblin', actin' like I can't find my keys Well, maybe you could give me a ride, yeah'Cause last night I was callin' you mine Discoverin' each other 'til the mornin' light And I don't know where this is goin' but it sure feels right I don't wanna leave you here tonight So let's do what we did last night againYeah, yeah, yeah I can't wait, I can't let you go No, I can't wait, no, I won't let you go Let you go'Cause last night I was callin' you mine Discoverin' each other 'til the mornin' light And I don't know where this is goin' but it sure feels right I don't wanna leave you here tonight So let's do what we did last night again Yeah, yeah, yeah Your lips are moving, but I can't hear you Wish you would talk your way right over here
