Fields Of Despair

Dragonforce

Can you feel the pain inside sometimes, in my mind?
In the land of loneliness the seas of blood run cold
Is the feeling lost inside within sins of all mankind?
Time after time we stood united as we go
Fly, far away don't let the world pass you by
Live, for the day when we must stand and survive
Now we face the Judgement Day our souls will feel the pain
Hear the screams of my world through the rain
Silent fields of despair, my tears in the rain
Pain in my heart bleedin' through
One day we'll be back for one moment in time
Endlessly searchin' for you
Who can cure my emptiness inside for this time?
Sufferin' from loneliness, my dreams and hopes will die
No more feelings left inside my blackened heart I cannot hide
Time after time, our souls divided on we cry

Fly, far away, don't leave your own past behind
Live, for the day another year passes by
Now we turn to face our fear there's nothing more to say
Still your dreams and my nightmares remain
Silent fields of despair my tears in the rain
Pain in my heart bleedin' through
One day we'll be back for one moment in time
Endlessly searchin' for you
Silent fields of despair my tears in the rain
Pain in my heart bleedin' through
One day we'll be back for one moment in time
Endlessly searchin' for you
Woo woo woo woo, woo woo woo woo
Woo woo woo woo, woo woo woo woo
Woo woo woo woo, woo woo woo woo
Woo woo woo woo, woo woo woo woo
