Forever In Your Eyes

Mint Condition

It came unannounced
This feeling I feel for you
I had to know
Was it love you felt too
Not through your words
But the way that you looked at me
Told me just how
How much you really care
So don't you try and hide your feelings
'Cause it's so very plain to see
I can see forever
Forever in you eyes
Just let your heart faithfully guide you
Guide you to love infinity
I can see forever
Forever in your eyes
Here we are
Baby, the time is right
Now there's no doubt
What we feel is right
So just say the word
'Cause I'm in it much too deep
To turn away
So please say you'll stay
Don't you try and hide your feelings
'Cause it's so very plain to see
I can see forever
Forever in you eyes
Just let your heart faithfully guide you
Guide you to love infinity
I can see forever
Forever in your eyes
So don't you try and hide your feelings
'Cause it's so very plain to see
I can see forever
Forever in you eyes
Just let your heart faithfully guide you
Guide you to love infinity
I can see forever

Forever in your eyes
Forever in your eyes
I can see forever in your eyes
Girl, I wanna hold you
Your head on my shoulder
With you I'll never tire
We'll take it higher and higher
Girl, I wanna hold you
Your head on my shoulder
With you I'll never tire
We'll take it higher and higher
I'll never hurt you, baby
I'll never be untrue
All my hopes and dreams
Are realized in your bed, baby
I'll never leave you sugar
I'll never leave your side
Our love is here forever
I can see it in your eyes
Girl, I wanna hold you
Your head on my shoulder
With you I'll never tire
We'll take it higher and higher
Girl, I wanna hold you
Your head on my shoulder
With you I'll never tire
We'll take it higher and higher
