Midnight Blues

Nico Franc

One, Two, Three...

When you got the midnight blues running through your skin
And a crowd of people will want you in a desk somewhere
Mmmm...
Well, Maybe she didn't stay for too long and, and now your singing a sad song
And unaware, that I'm there

(chorus)
Well even when time are hard, Even when it's going wrong
Even when you ask yourself, where did all these scars come from?
Yeah, I'm always there, I'm always there
Even when the midnight blues go out, i'll be there

That's what she said to me, When I was just a teen
That's what she said to me, Before the world showed me what she truly means...
So I took myself right out of my room and I, I found something else to do than sulk around
Ohhh, this is what I found,
Stranger danger than I had before something that,
Scared me a little more than she did now, than she did now

(chorus) x2
Well even when time are hard, Even when it's going wrong
Even when you ask yourself, where did all these scars come from?
Yeah, I'm always there, I'm always there
Even when the midnight blues go out, i'll be there
Even when the midnight blues go out, i'll be there

(Falsetto Background...Guitar)

Well even when time are hard, Even when it's going wrong
Even when you ask yourself, where did all these scars come from?
Yeah, I'm always there, yeah, I'm always there
Even when the midnight blues go out, i'll be there
Even when the midnight blues go out, i'll be there
Even when the midnight blues go out i'll be there.

That's what she said to me, When I was just a teen
That's what she said to me, Before the world showed me what she truly means.

I got a friend standing by me.
