A Place Where We Can Stay

Common Rider

There is more at stake than all my petty problems
Like the way that the moonlight sings its quiet logic
to the Florida coast and the answering tide
and you're watching it with me like an angel by my sideAnd I know that I love you forever and a day
and I know that I found a place where we can stayThere is more at stake than all my restless plans
Like the way that the heat of the day lingers in the sand
and you're feeling it with me in the gentle night
You're like a dream come true to me girl
Trouble gonna be alrightChorus
