

# A Place Where We Can Stay

## Common Rider

There is more at stake than all my petty problems  
Like the way that the moonlight sings its quiet logic  
to the Florida coast and the answering tide  
and you're watching it with me like an angel by my side  
And I know that I love you forever and a day  
and I know that I found a place where we can stay  
There is more at stake than all my restless plans  
Like the way that the heat of the day lingers in the sand  
and you're feeling it with me in the gentle night  
You're like a dream come true to me girl  
Trouble gonna be alright  
Chorus
