

Whiplash

Selena Gomez & The Scene

A baby moonlight
Hits the spotlight
I'm on my flight
To take you away
I'm feeling so free
You're makin me crazy
That's what you do
That's what you do
Let's go now!
Lickety split
A girl in a pit
She falls in a pit
Say hello darling
Twisted insanity
Fallen humanity
All I want is some tranquility
Do you hear me?
Do you hear me?
Well come on, boy
A come on
And take me to the other side
I'm blown away
When I look into your eyes
I'm so in love
I think I'm gonna crash
And get whiplash whiplash whiplash
It's up to you
And I don't wanna give you clues
We're movin fast
I think we got enough to lose
So don't look back or else we're gonna crash
And get whiplash whiplash whiplash
Like a first kiss
With a sweet list
Of some love songs, oh yeah
And with this melody
Falling over me
It makes me weak
So damn weak

So let's go now

Lickety split

A girl in a bil

She falls in a pit

Say hello darling

Twisted insanity

Fallen humanity

All I want is some tranquility

Do you hear me?

Do you hear me?

Well come on, boy

A come on

And take me to the other side

I'm blown away

When I look into your eyes

I'm so in love

I think I'm gonna crash

And get whiplash whiplash whiplash

It's up to you

And I don't wanna give you clues

We're movin fast

I think we got enough to lose

So don't look back or else we're gonna crash

And get whiplash whiplash whiplash

La la la la la la la

La la la la la la la

La la la ohh yea

La la la la la la la

La la la la la la la

So let's go now

A come on

And take me to the other side

I'm blown away

When I look into your eyes

I'm so in love

I think I'm gonna crash

And get whiplash whiplash whiplash

It's up to you

And I don't wanna give you clues

We're movin fast

I think we got enough to lose

So don't look back or else we're gonna crash

And get whiplash whiplash whiplash
