I Would Look Good With You

Josh Gracin

In case you hadn't noticed I'm a logical guy
I put two and two together and came up with you and I
Made an informed decision, my ducks are in a row
While I'm doing all this thinkin', well I guess you ought to know
Hey baby, I would look good with youI'm a little too short, you're a hair too tall
I can buy a stepladder, ain't no trouble at all
With my powers of persuasion and your cheerleader smile
My uncanny way with numbers and your middle class style
Hey baby, I would look good with you'Cause everybody's beautiful
If you take the time to see
Don't have to be sensible
Hey baby, just as long as it's meWe can take a cue from Noah and build a really big boat
You can work it on tan while we sail to Rio
Don't matter where we're headed, don't matter what we do
Got a sneaky suspicion and I'm pretty sure it's true
Hey baby, I would look good with you'Cause everybody's beautiful
If you take the time to see
Don't have to be sensible
Hey baby, just as long as it's me'Cause everybody's beautiful
If you take the time to see
Don't have to be sensible
Hey baby, just as long as it's meNo one believed Columbus
When he said, the world wasn't flat
Believe me when I tell you
Right here's where it's at
Hey baby, I would look good with
Hey baby, I would look good with
Hey baby, I would look good with you
